

👋 Welcome to my website

Hi, I'm Md. Arif Hossain.

I build simple, clean, and modern web experiences. This is my personal website, where I share my work, skills, and contact details.

About Me

I like building websites that are fast, responsive, and easy to use. I am learning and improving step by step.

01

Clean Design

Simple layout, readable content, and a modern look.

M

mdarifhossain.bd

Personal Website

Responsive

Works nicely on phone, tablet, and desktop screens.

03

Fast Loading

Lightweight page with no unnecessary extras.

Skills

These are the main things I use or am learning.

Front-end

HTML, CSS, JavaScript, responsive layout, basic UI design.

Tools

GitHub, GitHub Pages, Cloudflare DNS, basic website deployment.

Projects

Replace these with your real projects later.

Featured

Personal Website

A simple portfolio-style website hosted on GitHub Pages.

Quick Note

This page is ready for your domain. After Cloudflare finishes, we will connect SSL and make the site fully live.
